

## Over-Work Weakens Your Kidneys.

Weak Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers. They filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidneys.

Kidney trouble causes quick or untended heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys, but modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Write to Dr. Kilmer, Swamp-Root, P. O. Box 589, Hamamilton, N. Y.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Hamamilton, N. Y., on every bottle.

## My Breath. Shortness of Breath Is One of the Commonest Signs of Heart Disease.

Notwithstanding what many physicians say, heart disease can be cured. Dr. Miles' New Heart Cure has permanently restored to health many thousands who had found no relief in the medicines (allopathic or homoeopathic) of regular practicing physicians. It has proved itself unique in the history of medicine, by being so uniformly successful in curing those diseases.

Nearly always, one of the first signs of trouble is shortness of breath. Whether it comes as a result of walking or running up stairs, or of other exercises, if the heart is unable to meet this extra demand upon its pumping powers—there is something wrong with it.

The very best thing you can do, is to take Dr. Miles' New Heart Cure. It will go to the foundation of the trouble, and make a permanent cure by strengthening and renewing the nerves.

"I know that Dr. Miles' New Heart Cure is a great remedy. For a number of years I suffered from shortness of breath, smothering spells, and pains in my left side. For months at a time I could be unable to lie on my left side, and I lay flat on my back would nearly choke. A friend advised using Dr. Miles' New Heart Cure, which I did with good results. I began to improve at once, and after taking several bottles of the heart cure the pains in my side and smothering spells vanished. I am now entirely well. All these dreadful smothering spells are a thing of the past."—F. P. DRAKE, Middletown, O.

## BLACK-DRAUGHT STOCK and POULTRY MEDICINE

Stock and poultry have few troubles which are not bowel and liver irregularities. Black-Draught Stock and Poultry Medicine is a bowel and liver remedy for stock. It puts the organs of digestion in a perfect condition. Prominent American breeders and farmers keep their herds and flocks healthy by giving them an occasional dose of Black-Draught Stock and Poultry Medicine in their food. Any stock raiser may buy a 25-cent half-pound airtight can of this medicine from his dealer and keep his stock in vigorous health for weeks. Dealers generally keep Black-Draught Stock and Poultry Medicine. If yours does not, send 25 cents for a sample can to the manufacturers, The Chattanooga Medicine Co., Chattanooga, Tenn.

ROCHESTER, GA., Jan. 30, 1902. Black-Draught Stock and Poultry Medicine is the best I ever tried. Our stock was looking bad when you sent me the medicine and now they are getting so fine. They are looking 20 per cent better. S. P. BROCKINGTON.

The Birth of the Opal. There is a beautiful little story told about the opal, that delicate stone which you have no doubt seen in rings and bracelets. The story is that the opal was long ago promised to anybody who could discover it. It lay hidden away, so the old fortune tellers used to say, at the place "where the sunlight and the moonlight joined" each other, and whoever could find that spot would be rewarded by a quantity of large, beautiful opals. After a long search for the place "where the sunlight and moonlight joined" each other the place was found by a Spanish traveler, who followed up the rays of the setting sun, and when he had reached the end of the last ray he waited until the moonbeams shone upon the earth, and there he found the opals. They are said to be very lucky stones for those who are born in the fall of the year and very unlucky for those born in the spring. Of course it is only a saying that these are lucky or unlucky, but the rest of the story is true, as you will believe if you look in the heart of an opal and see the pink tints of the sun and the blue rays of the moon meeting in the middle of it.

A Test of Strength. Tradition has immortalized one Adargoma of Grand Canaria, who could wrestle for two consecutive hours and, having been thrown undermost in a certain contest, got his antagonist between his legs and arms and squeezed him so that his bones began to crack. The native was subsequently sent as a prisoner to Spain, where he astounded the people by his performance. One day in Seville he was visited by a young man of La Mancha, who was anxious to try a bout with him. "My good friend," said Adargoma, "as we are going to wrestle together it is only reasonable that we should begin by drinking something."

A large bowl of wine having been brought, he took this in one hand and continued to address his challenger: "If with both your arms you can overpower one of mine so as to hinder me from drinking every drop of this wine we will try our strength together; if not, you may return to your house." The struggle took place, and Adargoma by degrees drained the bowl in the coolest manner without spilling a drop of the wine. His one hand was more than a match for the other's two.

Speaking of Grains. In the United States when one speaks of "corn," maize is always meant. In England "corn" is applied to all cereals, especially wheat. In Scotland "corn" means oats. Germans use the word in the same sense as the English. Carlyle, being a Scotchman, in writing of Frederick the Great allows himself to refer frequently to Frederick's "meal carts," when, strictly speaking, he should have said "grain carts." What the bread of Frederick's soldiers was made of was wheat and rye, not "corn" in the restricted Scotch sense. In Scotland a "cornfield" is only a field of oats. Jamieson remarks that the term "corn" in northern Europe is used to denote that species of the grain most in use in any particular region. Hence in Sweden and Iceland the term denotes barley.

Well, Again. The many friends of John Blount will be pleased to learn that he has entirely recovered from his attack of rheumatism. Chamberlain's Pain Balm cured him after the best doctors in the town (Monroe, Ind.) had failed to give him relief. The prompt relief from pain which this liniment affords is alone worth many times its cost. For sale by all druggists.

## READ IT THROUGH.

"I WOULD STOLE THIS STORY TO TELL IT IN THE HEADLINES."

To use an eighteenth century phrase, this is an "over true tale." Having happened in a small Virginia town in the winter of 1902, it is a story much of the present. Up to a short time ago Mrs. John E. Harmon, of Melita Station, Va., had no personal knowledge of the curative properties of Chamberlain's Cough Remedy. "Last January," she says, "my baby took a dreadful cold, and at one time I feared she would have pneumonia; but one of my neighbors told me how this remedy had cured her little boy, and I began giving it to my baby at once, and it soon cured her. I heartily thank the manufacturers of Chamberlain's Cough Remedy for placing so great a cure within my reach. I cannot recommend it too highly or say too much in its favor. I hope all who read this will try it and be convinced as I was." For sale by all druggists.
